

Silverman et al.
09/313,216

requires a showing of all display portions on a single screen. Applicants respectfully submit that the claims do not require all display portions to be on a single screen. In order to overcome the Examiner's objection to the drawings, Applicants change the language of "display portion" to --display region--. Applicants submit that this change addresses the Examiner's objection to the drawings as the claims do not require all display "regions" to be on the same displayed screen. Applicants reiterate that the displayed "regions" may be displayed on one or more screens as described in the specification and shown in the figures.

Respectfully submitted,

By
